SUPERIOR, INSIDE AND OUT

Energy efficient, compact and quiet, customers love that Blomberg washing machines are minimally intrusive, while delivering maximum performance. **For maximum water efficiency**, all Blomberg washing machines are equipped with a system that regulates how much water is needed for each laundry load. And with their **compact size**, customers

are always pleasantly surprised by Blomberg washers' large washing capacity. Add to that the impressive noise reduction and durability of our technologically advanced **ProSmart Inverter Motor**. And you've got a crowd-pleasing line that's gentle on clothing and easy on the environment, yet seamlessly fits your customers' lifestyle.
