HOW OUR PELLET GRILLS USE CONVECTION COOKING

With true convection cooking, a rotisserie is not needed! Air-flow is circulated for even heat distribution reaching true cooking temperatures up to 600°F.

FULL DIGITAL CONTROL AND PROGRAMMABLE MEAT PROBE

Our Digital Control Center and Meat Probe work in tandem by regulating the internal cooking temperature of your food. Your grill automatically reduces to a low smoke setting when ready.

FLAME BROILER FOR OPEN-FLAME GRILLING!

Master your steaks and burgers just like your favorite steakhouse! The Flame Broiler is a simple slide-plate which allows complete control for direct flame grilling.

REMOVABLE UPPER RACK WITH ALL LG SERIES GRILLS

Unique to Louisiana Grills, the upper rack is additional cooking space! Cook your dinner on the bottom while you bake dessert up above, and all at once!

EASY CLEAN CAST IRON PORCELAIN COATED GRATES

Clean-up is easy with the heavy duty porcelain-coated cooking grids! Known for superior heat retention, the cast-iron core allows for perfect searing and braising.

CERAMIC HEAT DEFLECTOR

Install a ceramic heat deflector on your Louisiana Grills Ceramic Series to further promote your cooking capabilities. The heat deflector facilitates indirect cooking on your ceramic charcoal barbecue by providing a heat-directing barrier between your food and the flames. In creating a convection cooking style, the heat deflector prevents charring and burning. It is easy to maintain and is the perfect accessory for pizzas, baking, briskets, roasts, whole chickens, or ribs. Make the most of your BBQ. Get your heat deflector today and master the art of charcoal grilling.

ELECTRIC CHARCOAL IGNITER - #58020

The trigger-operated igniter has an extended, user-friendly handle to prevent burning and over-reaching. Heating up in seconds, the PB Electric Igniter guarantees a safe and sure flame every time.

GRID GRIPPER - #60125

Manage your cooking grids safely and easily with Louisiana Grills' Grid Grippers. An extended, heat-resistant handle allows for the secure adjustment of your LG Ceramic Series cooking grids when hot.

100% NATURAL PREMIUM HARDWOOD LUMP CHARCOAL

Burns longer, hotter, and cleaner.

Through our unique process, our Louisiana Grills Premium Lump Charcoal is naturally made from pure hardwood Oak Wood. Unlike other common brands of lump charcoal, no chemical additives or fillers are added to our product. We burn hotter, burn environmentally cleaner, and prove a longer performance, providing consistent flavor for all your outdoor grilling experiences—saving you time and money.
