■ ■ BLOMBERG 30" PRO STYLE DUAL FUEL RANGE

CONTEMPORARY EUROPEAN DESIGN

Winner of the prestigious **iF Design award**, Blomberg ranges bring sophistication, thoughtfulness, and **cutting-edge technology** to the kitchen, harmonizing elegance and chef-worthy functionality with the effortless style your upscale home deserves. This balance is evident in every feature, from the sleek oven handle and sculpted ergonomic knobs to the beautiful LED lights under the bullnose that illuminate the controls and programmable electronic timer.

TRUE EUROPEAN CONVECTION

Blomberg's advanced convection system features an additional dedicated heating element around the cooking fan to **circulate warm air evenly, creating a three-dimensional cooking effect that works consistently on every rack**. Roasts and casseroles cook faster and more uniformly. Baked goods are evenly browned and beautiful. **Multiple dishes cook to perfection at the same time** with no mixing of flavors or aromas.

18,000 BTU–675 BTU BURNERS

Ingenious Blomberg technology can actually help you refine your culinary skills! **Flexible-power burners offer preset options for more precise cooking at different temperatures**. The 18,000 BTU setting delivers high heat to speed up preparation with a fast boil or sizzle. Switching to the 675 BTU setting automatically adjusts to gentler heat, ideal for simmering delicate sauces, melting chocolate, or cooking fluffy rice like an expert.
