

SHOW GUIDE — PRODUCTS

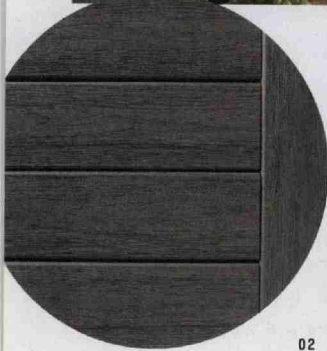

Product Debut

A look at some of the new products that will be introduced at the International Builders' Show. *by MARY SALMONSEN*

01

01 American Standard
American Standard has expanded its Studio S collection with a new set of kitchen fixtures: a semi-professional faucet, pull-out faucet, pull-down dual spray faucet, bar faucet, and wall-mount pot filler. Each features a minimalist design aesthetic, with one-piece handles for easy cleaning. All of the faucets feature magnetic docks to keep the spray head in place. The collection is available in a matte black, polished chrome, or stainless steel finish. The faucets feature a 1.5 gpm flow rate, while the pot filler fills at 4 gpm. americanstandard.com. **BOOTH N3105**

02

02 AZEK Building Products
TimberTech AZEK's Multi-Width Decking offerings will include two new 7.25-inch wide board colors in the Harvest Collection, brownstone and slate gray. Also new to TimberTech AZEK are MAX boards,

03

which offer a 1.5-inch thickness in a choice of two gray shades, coastline and slate gray. TimberTech PRO will add the new Reserve Collection, which includes four colors, two grays and two browns, in a matte finish, and TimberTech EDGE now includes the Prime+ Collection, which features two color blends with a scalloped profile and tight, straight-grain embossing pattern. azekco.com. **BOOTH N1408**

03 Bertazzoni

The Collezione Metalli line adds a series of decorative finish options to the Heritage Series of ranges, hoods, refrigerators, and dishwashers, including control knobs and handle finials in a choice of gold, copper and black nickel. Each set is plated with real metal in a high-shine finish, treated for protection from wear and tear. us.bertazzoni.com. **BOOTH C8904**

04 Dekton by Cosentino

The Dekton Chromica Collection is a new series of ultra-saturated color profiles for Cosentino's Dekton solid architectural surfacing, designed in collaboration with architect and designer Daniel Germani. At launch the collection includes two color profiles: Baltic, a deep blue inspired by the depths of the ocean, and Feroe, a dark green inspired by hidden and "unexplored" corners of nature. Each is available in a sleek matte finish.

Dekton by Cosentino's solid surfacing is highly scratch-, stain-, and UV-resistant, according to the manufacturer, with low maintenance requirements. It is available in large-format slabs and a variety of thicknesses. cosentino.com. **BOOTH N1919**

05 Eldorado Stone

The Vintage Ranch wood-look architectural stone veneer is now available in a new profile, Dawnwood, made to resemble whitewashed beige barn wood. According to the manufacturer, the profile is designed both to meet the demand for an aged barn wood look and to "warm up" the colder neutral tones in contemporary spaces. The Vintage Ranch veneer is available in panelized systems of 2-, 4-, and 6-inch high planks, designed for quick installation. eldoradostone.com. **BOOTH C4519**

06 Emser Tile

New product options from Emser Tile for 2020 include: Allure, a natural stone mosaic inspired by parquet design; Impulse, a chevron-style natural stone pattern; Rhythm, a geometric glazed porcelain tile available in black or white matte; Splash, a bold molten glass mosaic pattern; Sterlina glazed porcelain, which evokes both marble and concrete; and Yakedo, a glazed porcelain plank that resembles burnt wood. emsertile.com. **BOOTH C7237**

08

INOX

The PD96 self-latching mortise lock for sliding doors features a bolt actuator on the strike plate and a solid brass push button on the lock face. When the door closes, a 1-inch, heavy-duty brass bolt automatically latches the door. The lock is available in three metallic finishes and all CeraMax Rainbeaux finishes. unisonhardware.com.

BOOTH SL3104

09

James Hardie

The James Hardie Dream Collection adds 700 custom color options for ColorPlus Technology, which provides fade, chip, and crack resistance. The collection is divided into five color families: classic lights and darks, grays and neutrals, blues and greens, earth tones, and peaceful pastels. Each one is made to order in any of James Hardie's siding and trim options. jameshardie.com.

11

LOTTE

The Locelain sintered-stone collection consists of 100% ceramic materials sintered into super-hard sheets. The material is UV-, scratch and extreme temperature resistant, waterproof, stain-proof, and resists household chemicals. As of launch Locelain is available in nine

colors, including baltistan charcoal and calacatta snow. lottechem.com.
BOOTH SL1543

12

LP Building Solutions

The LP WeatherLogic Water Screen is a polymer-based screen designed to increase the ventilation and drainage of a home's existing envelope, thus extending the life of its surfaces. It may be used either with OSB and a WRB house wrap or with an integrated panel. The screen is lightweight, easy to install, and mold-resistant. lpcorp.com.

BOOTH C3810

13

True Residential

True Residential has added an ultra matte black finish option for all appliances in its Build Your True custom finish and hardware program. According to the manufacturer, the new finish adds drama and depth to indoor or outdoor spaces, and may even serve as a neutral in some palettes. true-residential.com.
