PRODUCT GUIDE **2025**

OVER 140 YEARS OF ITALIAN KNOW-HOW AND PASSION

Back in the 19th century, Francesco Bertazzoni and his son observed the trains arriving from Germany; he noticed they were heated by a new type of wood-burning stove that was used both to cook food for the train crew and to heat the carriages. This innovation appealed to his entrepreneurial instincts and his love of food, family and engineering.

Emilia-Romagna region

Bertazzoni's home is in the Emilia-Romagna region of northern Italy, in the Po Valley. Known as the breadbasket of Italy. Renowned for its agricultural abundance means all the ingredients for the perfect meal can be found here.
Family. Food. Engineering. These three ideas came together in the mind of Francesco and they have passed down through the six Bertazzoni generations that have followed almost a century and a half later. Today those three words define the Bertazzoni brand.

Always be true to yourself and to your own values.
