

Commercial-grade heritage. Everyday dependability.

Built on trusted performance

At Huebsch, every machine is more than an appliance — it's a promise of reliability. Built on over a century of commercial laundry expertise, each washer and dryer is engineered for strength, consistency, and long-term performance.

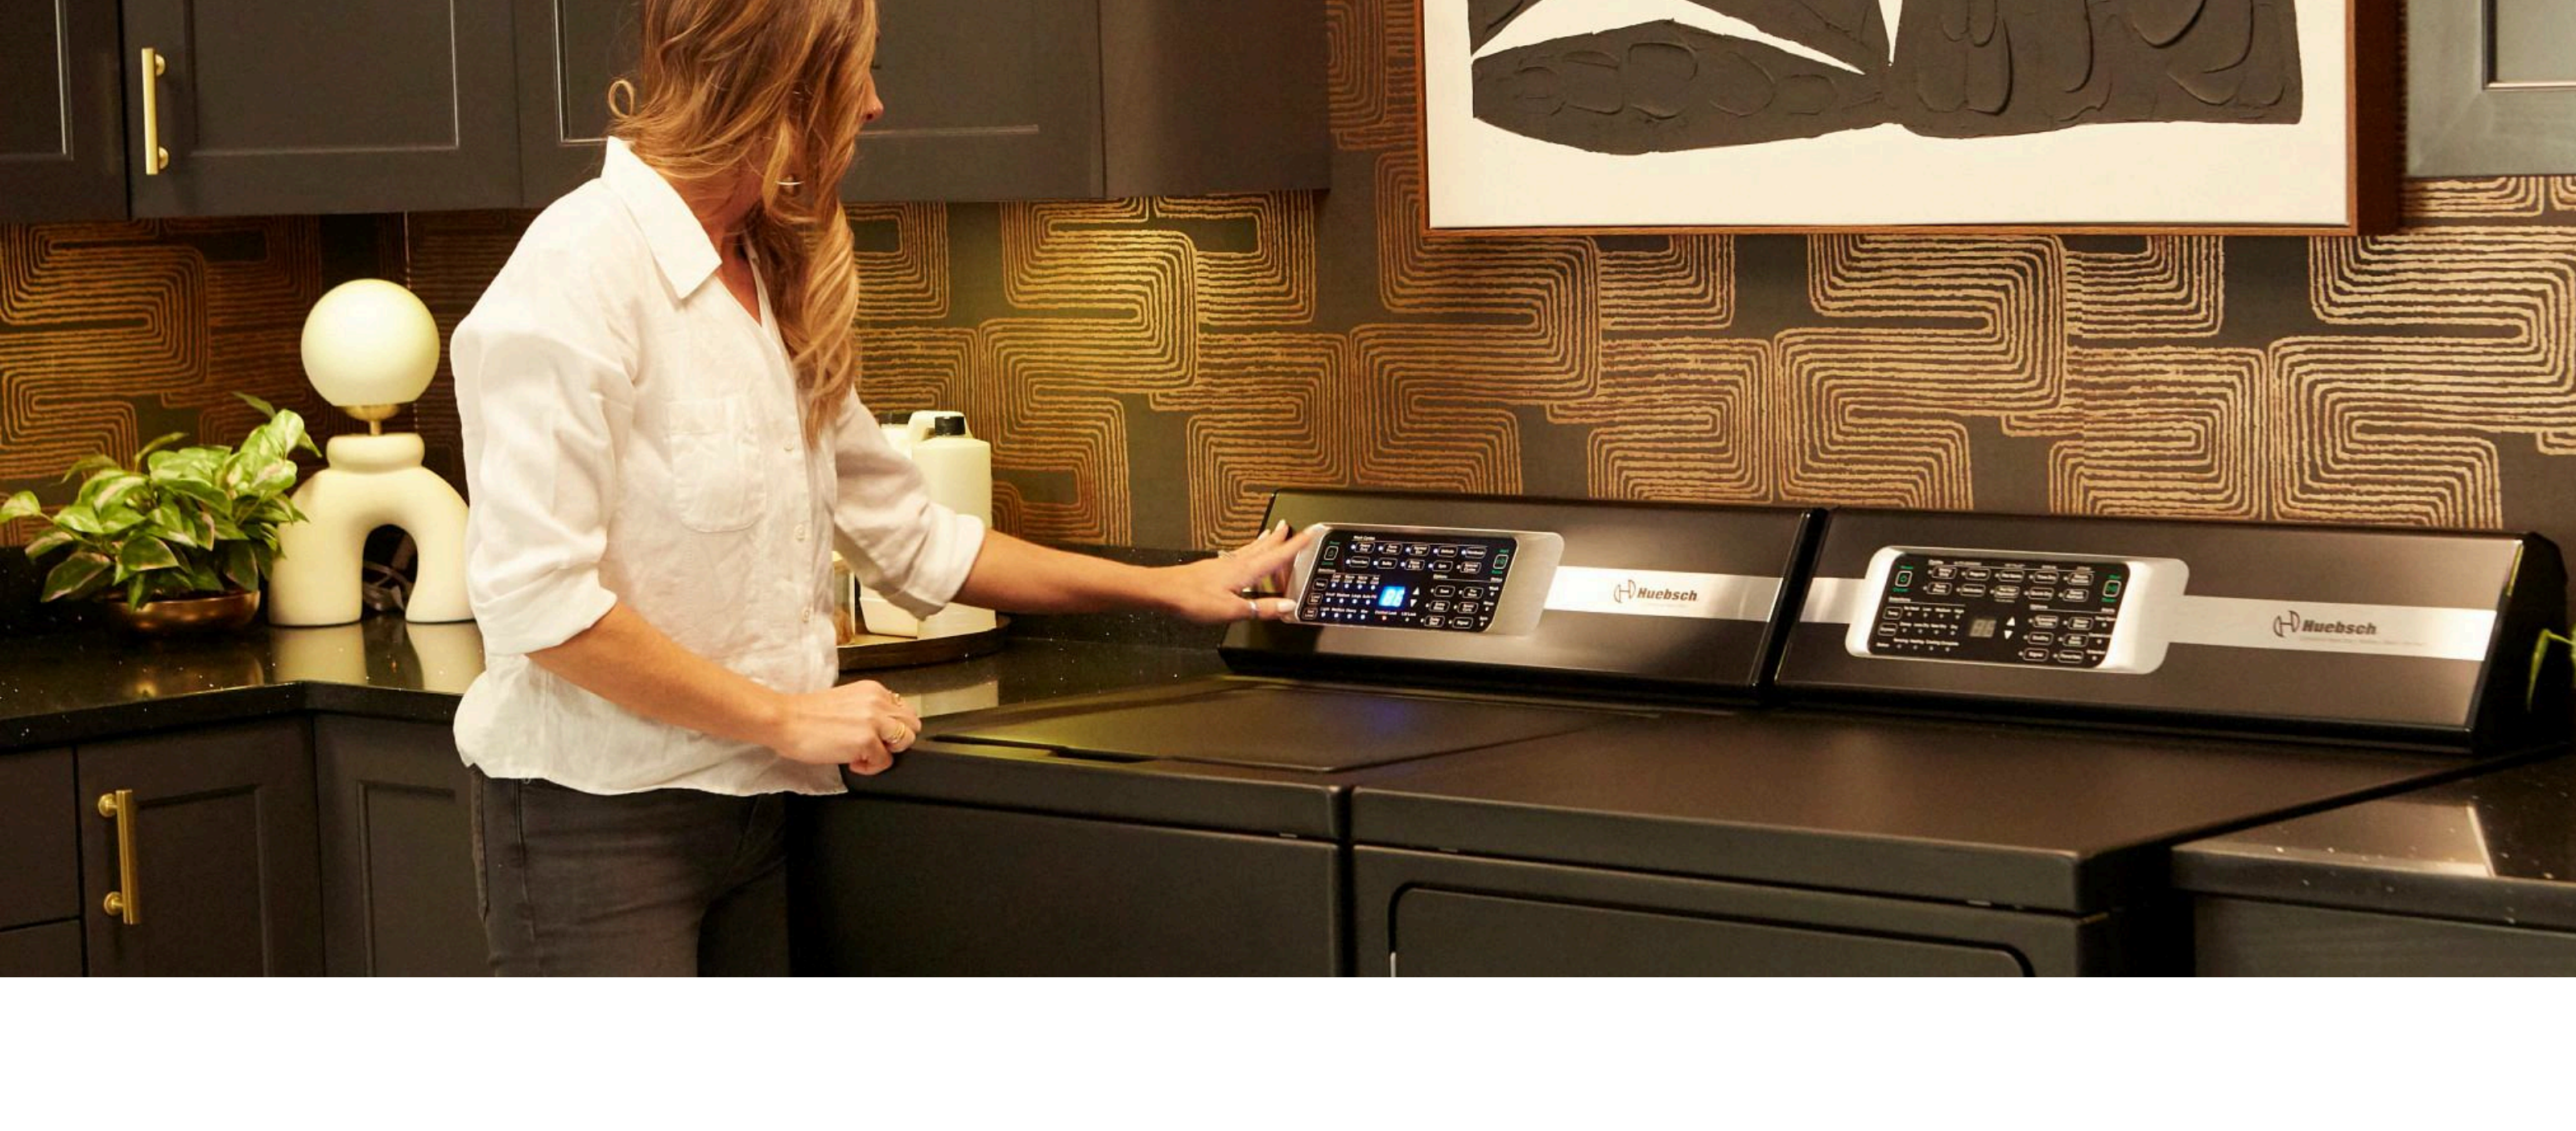

The result?

Equipment that works as hard as you do — day after day, year after year, decade after decade.

Industry-Leading Warranty for Total Confidence

Huebsch backs its proven performance with **5- and 7-year** full warranties in Canada, plus a lifetime limited warranty on key stainless steel components— so you can count on dependable performance for the long haul.

Now, Huebsch continues to evolve its lineup, delivering even greater efficiency, durability, and simplicity for every laundry space.

Huebsch in matte black

The Huebsch laundry systems you know and trust are now available in a sophisticated Matte Black finish. Designed to combine lasting durability with modern style, the new collection brings a bold and refined look to any laundry space. **Available in the top loads, front loads and stacked units.**

New, improved TR5 and TR7

The latest TR5 and TR7 top-load washers now feature **No Lid Lock before first spin**, allowing forgotten items to be added during the wash cycle with greater convenience. Combined with Huebsch's legendary reliability and commercial-grade construction, these updates make everyday laundry easier than ever.

Advanced cleaning features for the pet lovers out there...

The **Pet Plus™ cycle** that you have come to love on the 7-Series is now available on the DC5 Classic Series. This cycle is a highly effective solution for removing pet hair from garments while keeping fabrics clean, fresh, and ready to wear. It's designed to handle even bulky pet items with ease, delivering consistent results across everyday laundry loads.

The **Pet Plus™ cycle** is also available on the Front Loads and Stacker units.

To elevate the game on sanitation and cleanliness, the Front Load and Stacker washers have enhanced the level of sanitation and cleanliness even further by introducing the **Pet Plus™ Anti-Flea cycle** - an industry-exclusive solution designed and tested to help address flea infestations. This specialized cycle adds another layer of protection for fabrics while maintaining gentle care throughout the wash process.

The Power of Steam

All Huebsch dryers now come equipped with advanced Steam technology. Harness the power of steam to instantly refresh garments, soften fabrics, and reduce wrinkles—no ironing or dryer sheets needed. And with the Steam Sanitize cycle, the combined power of heat, time, and steam eliminates up to 99.9% of common household bacteria—giving you fresher, cleaner clothes in every load.

Want a higher level of sanitation?

Choose the **Sanitize with Oxi cycle** on the Front Load and Stacker washers for a deeper and higher level of clean.

All these innovations reinforce Huebsch's commitment to deliver reliable performance with practical, everyday functionality for modern laundry needs.

But wait!
There's more...

Take advantage of a **limited-time rebate promotion** on all DC5 dryers.
